

SUSTAINABILITY

**An Introduction and Critique of
the LEED Rating System
and a Walk through Your Home**

Using the U.S. Green Building Council LEED (Leadership in Energy and Environmental Design) rating system to structure the discussion, local architect Bill Hubner will explain the basic concept of sustainability and describe practices that can be applied to the construction, renovation, maintenance, and use of our homes that contribute to sustainability.

THURSDAY

**February 11 @ 7:00 p.m.
in the Large Meeting Room**
