JULY 2021

1  Explore Kenya with Bill Gette
Bill Gette, founding Director of Mass Audubon's Joppa Flats Education Center, has had four national history travel adventures to the east African nation of Kenya. During the first three 10-day trips, he and his fellow travelers visited many of the world's most spectacular wildlife viewing areas in the country, including Mount Kenya National Park, Masai Mara National Reserve, the Rift Valley and Ngorongoro National Park, and the extensive grasslands of world-famous Serengeti National Reserve. During his fourth illustrated PowerPoint presentation, Bill will discuss and show photographs of the diverse habitat he explored, over 80 species of colorful birds, and large concentrations of mammals, including elephants, lions, giraffes, leopards, and cheetahs. He'll also include a video of a Common Zebra swimming across a crocodile-infested river.

2  Cooking with Chef Trisha Perez
Kennealy: Pie!
Are you someone who can barely boil water but want to be able to cook for yourself and/or your family? Please join Chef Trisha Perez Kennealy, monthly, on the wednesdays through some very basic cooking instructions that over the months will be able to follow! This month, we’re learning how to make the best pie! Such a summer staple. 10:00AM | ZOOM

7  Lexington Parks & Traffic Islands
From its inception in 1876, the Lexington Field & Garden Club has been making a positive mark on the environment. Today, over 50 members of the club dedicate considerable time and effort to beautifying and maintaining over twenty of Lexington’s parks and traffic islands. Master Gardener Shelly Henderson and Ashley Rooney will discuss their work and some of the plants that can withstand busy streets.
