

# fire breathing DRAGONS!

1 Cut thin strips of red, orange, and yellow crepe paper. Glue them around the 'mouth' of your dragon to make the fire.

2 Glue construction paper around the tube, covering the ends of the crepe paper.

3 Add details! Glue on eyes, draw nostrils or scales, add some paper spikes. Whatever you imagine!

4 Blow through the end of the tube to make the fire flutter.

## You will need:

- cardboard tube
- construction paper
- red, orange, & yellow crepe paper
- googly eyes (optional)
- scissors
- glue or glue stick
- markers, pencils, or crayons
