

let's make a MARIONETTE!

You will need:

- Cardboard tubes
- popsicle stick, wood dowel, or stick
- yarn or string
- cardboard
- paper
- markers or crayons
- glue or glue stick
- scissors
- hole punch

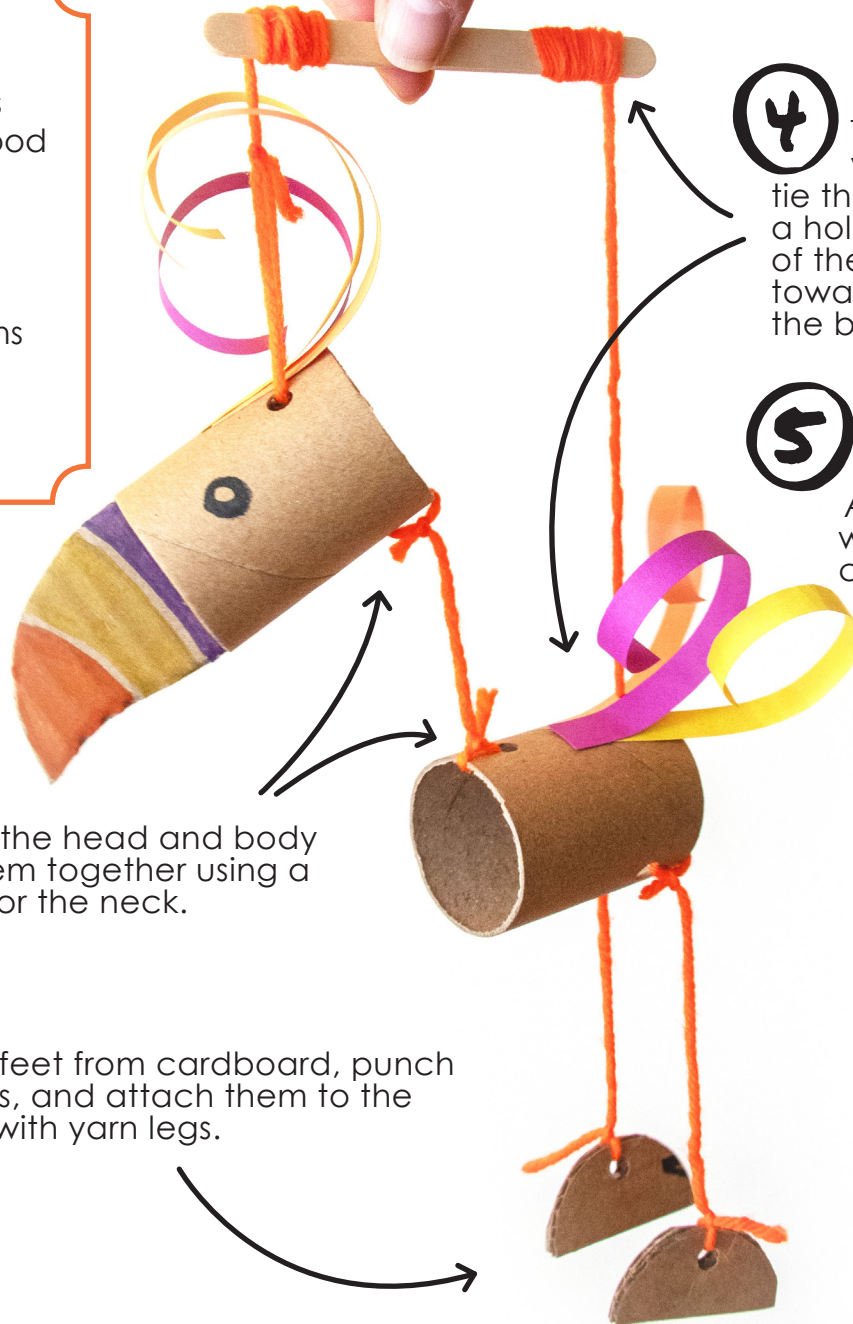

1 Cut cardboard tubes for the puppet's head and body.

2 Punch holes in the head and body and attach them together using a piece of yarn for the neck.

3 Cut feet from cardboard, punch holes, and attach them to the body with yarn legs.

4 Tie two pieces of yarn to a stick - tie the other ends to a hole on the back of the head and one toward the back of the body.

5 Decorate!
Add details with markers, construction paper, and any other supplies you have.

Watch a video of a cardboard tube marionette being made on the Cary Library YouTube channel.
