

think Spring with a SUNCATCHER!

You will need:

- stiff cardboard
- contact paper
- colorful translucent paper, tissue paper, and other materials
- yarn or string
- scissors
- glue or glue stick

1 Ask an adult to help you cut out 2 identical cardboard rings. Cut

2 shapes such as flowers, leaves, or blobs from your paper and other materials.

3 Cut 2 pieces of contact paper. Peel the backing off one sheet of contact paper. Lay it on the table, sticky side up.

4 Stick your shapes onto the contact paper. Notice how layering the tissue paper creates new colors!

Peel the backing off the other sheet of contact paper. Sandwich the tissue paper between the 2 sheets, sticky sides together.

5 Glue the contact paper between the cardboard rings. Trim off any contact paper sticking out.

6 Punch a hole through the cardboard and use a piece of string to hang your suncatcher in the window!
